

ARJ11 VOICE GRADE JACK

Locking bezels provide distinctive jack identification with color and Icon options for port identification (*bezels ordered separately*).

The ARJ11 modular jacks can be used alone or with a variety of faceplates. They are also available with a pre-wired 6 inch pigtail harness (ARJ11W) and mating connector.

IDC contacts meet durability requirements of TIA 568A.
Plastic housing meets Flame Retardant UL94 V-O)

Color code your jack to EIA/TIA 606 specifications or to match your décor.
