

PRESS RELEASE

DEKLIN TECHNOLOGIES, INC.

RJ45 Dust Covers

As Ethernet gains in popularity in aviation, so do the demands on the cabling systems. Deklin Technologies, Inc. is proud to introduce a RJ45 dust cover. Help keep dust, food, water and other contaminants out of your RJ45 connectors with this uniquely designed push in cover. Deklin offers the cover with or without a 4 inch stainless steel lanyard.

Sealed RJ45 Connector for harsh environments

Also available for harsher environments is a RJ45 shielded plug/jack. This connector system features a rugged outer shell with a threaded coupling and an O-ring seal. Receptacles mount into a 1" hole and utilizes a nut for easy mounting. Screw on cover with lanyard also available.
